\$1,000 second Liberty Loan converted 4 1-4 per  
cent gold bond.

In our report last year we explained the business  
relations between the Plymouth Public Library and  
the Young Ladies' Library Association, and it is  
deemed unnecessary to repeat the information con-  
tained therein.

Under the heads of Resources and Service the Association has made the following report to the library trustees, for the fiscal year 1920:

ELBERT E. ORCUTT,  
ALVIN BURLEIGH,  
CAROLINE W. MUDGETT,  
Library Trustees.

Plymouth, N. H., Feb. 12, 1921.

We have examined the foregoing accounts of Selectmen, Treasurer, Superintendent of Cemeteries, Overseer of Poor, Road Agents, Treasurer of the Library Trustees, Town Clerk, Tax Collector and Board of Trustees for Trust Property of the town, and find the same correctly cost and properly vouched.

W. J. RANDOLPH,  
M. A. BATCHELDER,

### The State of New Hampshire.

To the inhabitants of the Plymouth Village Fire District in the County of Grafton in said State, qualified to vote in District Affairs.

You are hereby notified to meet at the Town Hall in said District, on Wednesday, the ninth day of March next, at eight of the clock in the afternoon, to act upon the following subjects:

1. To choose all necessary District Officers for the year ensuing.
2. To see what sum of money the District will vote to pay the Methodist Society for use of church and bell for electric fire alarm purposes for the ensuing year.
3. To see what sum of money the District will vote to raise for fire apparatus, supplies, care of electric fire alarm system, pay of firemen and other necessary expenses of said District for ensuing year.
4. To see what sum of money the District will vote to raise for water for District purposes for the the ensuing year.
5. To see what sum of money the District will vote to raise for sewer purposes for the ensuing year.
6. To see if the District will vote to authorize its Commissioners to borrow such sums of money as may be necessary to pay the debts of the District, and give notes therefor, countersigned by the District Treasurer.
7. To see what action the District will take in regard to furnishing water to people in the town of Holderness.

8. To see what action the District will take in regard to salaries of the District Officers, Commissioners, or a special committee or agent,
9. To see if the District will authorize the Water to sell the junk, the artesian well house and machinery and appliances connected therewith, and mature timber on the District's lands; the proceeds to be applied to its interest bearing debt.

Given under our hands and common seal this twenty-first day of February, in the year of our Lord nineteen hundred and twenty-one.

ALFRED H. WHITE,  
P. M. AYER,  
F. P. TOLLEN,

Commissioners of Plymouth Village Fire District.

A true copy of Warrant—Attest:

ALFRED H. WHITE,  
P. M. AYER,  
F. P. TOLLEN,

Commissioners of Plymouth Village Fire District.

## **FIRE COMMISSIONERS' REPORT**

---

### **Fire Department**

There have been two bell alarms, three out of town calls, one false alarm and twenty still alarms during the past year. We have added some new apparatus during the year including two portable electric lights, two smoke masks and a revolving cellar nozzle. There are two fire alarm boxes that should be replaced with new ones as once in a while the contacts do not close, which leaves the circuit open. The hose house should be painted this year and a new oiling system added to the pump of the fire engine. With the exception of a broken steering gear case we have had no trouble with the fire engine, which is in good condition at the present time. We have paid \$2,000 on the debt of the Fire Department, leaving a balance of \$5,000, and we recommend raising \$2,000 to be paid this year.

### **Sewer Department**

We have had some trouble during the past year from water backing up into cellars and thru catch basins on South Main street, due, we think, to the way the sewer from Maiden Lane was connected to the main sewer, and we have changed this and connected it thru the Y that was originally laid in the Main street sewer for this purpose but we cannot be sure that the trouble is fixed until we have another hard rain, if this does not remedy the trouble there will have to be a larger pipe placed along Main street.

A statement of the expenditures of both Fire and Sewer Departments for the past year and our recommendations for the coming year follows:

#### Fire Department

	Actual 1920	Estimated 1921
Fuel	\$259.47	\$225.00
Electric current, for lights, fire alarm and storage battery on truck	108.94	110.00
Insurance	105.12	100.00
Pay of firemen	1,629.54	1,500.00
Salaries of district officers	85.00	170.00
Water for fire protection	1,500.00	1,500.00
Miscellaneous	152.88	150.00
General maintenance and repairs	60.96	250.00
Interest	459.91	360.00
New apparatus and supplies	178.01	300.00

Plymouth, N. H., Feb. 12, 1921.

I have examined the foregoing account of Gordon  
M. Clay, Treasurer of the Plymouth Village Fire Dis-

trict, Water Department, and find the same correctly cast and properly vouched. At the same time I burned the following paid bonds: Nos. 79, 80 and 81 for \$1,000 each, also bond No. 82 for \$100, together with paid coupons amounting to \$54.25. This account is for the thirteen months ending Jan. 31, 1921.

MOSES A. BATCHELDER, Auditor.

## WATER COMMISSIONERS' REPORT

---

Every water board has its problems, ours seem to have been the re-arrangement of the District's debt, increasing the income so as to pay all expenses, improve the system and start a substantial reduction of the interest bearing obligations, equalize the service and charges to all water takers, design a responsive method of collection of water rates, and secure adequate payment for the water used by everyone. We trust something has been accomplished along these lines to the betterment of the conditions.

The outstanding debts of the Water Department January 1, 1920, consisting of bonds, coupons, notes, interest and unpaid bills (presumably because not presented) were \$38,915.89. January 31, 1921, the Water Department closed its business with no outstanding bills, but with an interest bearing debt of \$34,000.00, the average rate being 4.87 per cent.

The Treasurer's account will show \$7,800.00 borrowed on district notes, none of this, however, was for payment of current expenses. The debt of \$43,000.00, bonded May 1, 1900, has been extinguished.

152 new meters have been purchased. Probably all will be placed by the time of the annual district meeting. About 100 of those once in the system have been cleaned, repaired and replaced. Except in about 25 places, which need to wait until the frost is out of the ground, the entire system will be metered. This

serves two purposes, first, to secure payment for the full amount of water taken; second, the finding out of prevailing leaks on non-metered places and directly stopping the great waste that has been burdensome to the system in past years trying to keep up the supply.

On May 15, 1920, the interest bearing debt of the water department was \$37,500.00. The district at its last annual meeting having voted not to bond its debt, even though Chapter 129 of the laws of 1917 seemed to have distinctly required it, placed your Water Commissioners in a difficult situation, the creditors being disposed to be patient and helpful, we have adopted a scheme of payments similar in effect to what serial bonds would have done, that is, we have assigned \$2,500.00 of the principal and interest with the interest on the remaining debt to be paid not later than January 15th of each year, beginning with January 15, 1921, so that this entire debt will be paid within the fifteen years required by law. That part of the notes assigned to be paid on or before Jan. 15, 1921, is called series I, that part to be paid by Jan. 15, 1922, is called series II, and so on.

The interest payment dates have been re-arranged so as to come on July 15th and January 15th, a time when the treasury is flush with cash. Series I and \$1,000.00 on Series II and all the interest on the remaining debt due Jan. 15, 1921, has been paid. It seemed better that this surplus money should serve to stop interest rather than be idle in the bank. The cash on hand and unpaid water rates and excess accounts will be needed to pay the running expenses and complete the installation of meters till the July water rates become due.

During the spring overflow the main pipes of the entire system were flushed, apparently to advantage. This can be done each year and probably will help keep the water cleaner. The small reservoir was cleaned. The quality of the water in it in the summer time seems to require its elimination from the system during this part of the year, consequently, more pumping. In order to provide good water in sufficient quantity it is necessary to pump about half of the time.

The Treasurer's report covers thirteen months to make it comply with section 9, chapter 129 of the laws of 1917, which says, "The fiscal year of towns, Village precincts and departments thereof, except school districts, shall end on the thirty-first day of January." Therefore, practically one and one-half year's income was available this year, which has not occurred before and will not again. The ancient water bills due previous to December 31, 1919, have been collected without abatement. The 1920 accounts of every description have likewise been collected, so that every cent owing the district to December 31, 1920, has been received.

About 700 feet of new six inch main pipe was laid on the Rumney road and a hydrant placed near the Livermore schoolhouse. The cost was small as the district had purchased this pipe years ago and the ditch work was done by the town.

The electric motor and starter at the pumping station were sent away for repairs, it probably never was right; we have had some trouble with transformers which accounts for a recent shortage of water. About half a dozen hydrants that are a perennial source of trouble should be replaced. Bad breaks in the mains have not occurred this year.

If the usual \$1,500.00 is raised for water purposes, with the water rents, the running expenses can be met, needed repairs and extensions made and a substantial reduction of the debt during another year.

As to the quality of the water that the system furnishes, an analysis of a specimen taken at the depot faucet by Health Officer L. D. Fogg on January 19, 1921, is reported by the State Chemist, "Good condition indicated."

Respectfully submitted,

JAMES B. CLIFFORD,  
JOHN KENISTON,  
ALFRED H. WHITE,

Water Commissioners.

## REPORT OF SCHOOL BOARD

---

The first year of work under the new educational law closed August 31, 1920, and we are in the midst of the second. Whether the schools are better than before, your board will not undertake to say. One thing we know. The expense has been greater. How much of the extra cost would have come to us under the old system is perhaps problematical and we will assume that the entire increase in teachers' salaries, textbooks, supplies, repairs, etc., would have been necessary if the law had not changed. That Plymouth cannot receive any state aid under the new law is beyond dispute, in view of the attitude of the State Board of Education in refusing to consider conditions here exceptional. We no longer receive about \$1,250.00 which we had each year under the old law and we are paying about \$1,250.00 each year for supervision, including the per capita tax, which we did not pay formerly, and the other expenses of a superintendent. Probably no one will argue that the new law is saving us anything at any point. It therefore follows that the minimum cost to the district is \$2,500.00. Whether we like it or not, this extra cost is bound to continue.

The board does not care to discuss the question as to whether the new law, taken together with the regulations of the State Board of Education, limits its powers. With all due respect to General Streeter, we know that there is not one of our powers but is subject to state control. We are permitted to exercise certain of them just so long as we do so in accordance with the wishes of the department of public instruction and no longer. It is the policy of the State Board to hypnotize the towns into believing they are free, but the iron hand of the educational oligarchy is always ready to suppress any attempt at real freedom. In spite of the fact that General Streeter says that the School Boards fix the course of study, we wish to go on record as insisting that the nine year course of study in our district schools was

abolished by the State Department and not by us. We feel that the people of this town should be warned that it is the intention of the powers that be to have a Normal College established in Plymouth which shall control all of our schools including the High School. No less a person than our Superintendent stated to a teachers' meeting last fall that this would happen within four years. Perhaps it would be better so.

The board has done its best to keep the expenses of the schools within the appropriations. Where it has been necessary to exceed the estimated amount, as in the case of repairs, we have curtailed the expenditures in other departments to make up the amount. Unless something unforeseen happens, there will be no deficit this year. We estimate that it will be possible to run the schools next year with an appropriation about \$3,000 less than was raised this year. The school requirements for the next fiscal year will be about as follows:

Principal of bonds	\$4,000.00
Interest on bonds	2,000.00
Teachers' salaries	16,500.00
Janitors' salaries	1,500.00
Textbooks and supplies	1,500.00
High school equipment	300.00
Fuel	2,000.00
Repairs	1,000.00
Insurance	200.00
Per capita tax on 450 pupils	900.00
<b>Total requirements</b>	<b>\$29,900.00</b>
Estimated receipts to apply on above requirements:	
Tuitions	\$2,500.00
Required by law (\$3.50 per \$1,000)	6,500.00
Per capita tax required by law	900.00
<b>Total</b>	<b>9,900.00</b>
<b>Additional required</b>	<b>\$20,000.00</b>

We recommend that the sum of \$20,000.00 be raised for the purposes specified in article six of the warrant in addition to the amount required by law and the per capita tax, with authority given to the school board to appropriate the same as above or otherwise as necessity may require.

Money for superintendent's salary and expenses should be raised in addition under article nine and for medical inspection under article eight as these matters are not included in the above estimates.

The statistical portion of our report has been prepared by the Superintendent of Schools and we incorporate it by printing his report to us. It should not be inferred that all his statements are endorsed by our board.

Respectfully submitted,

WALTER M. FLINT,  
HEBER W. HULL,  
RANDALL A. FLAGG,

School Board of Plymouth.

### Superintendent's Report to School Board

I herewith submit my first annual report as superintendent of Plymouth Union. As far as I am able to observe progress has been made along all lines of school work.

### MEDICAL INSPECTION

Owing to lack of funds the schools were but partially inspected last year. Three schools were inspected by Dr. Garland; namely, Livermore, Ward's Hill and Baker River. This year all the schools have had medical inspection by the school physician, Dr. Garland. There has been considerable good resulted therefrom already, especially in cases where glasses were needed. The results of the inspection are being tabulated and a report will soon be made. The state of health of our school children is good.

## RURAL SCHOOLS

The rural schools are all in good condition. The teachers are all doing high grade work. The change from a nine to an eight year's course to conform to the state program of studies has made extra work for the teachers but no bad results have come from the change. This year will straighten out all changes and a large class of 20 to 25 well trained pupils will be graduated. There will be only six or eight this year. Last year six graduated from the rural schools, all of whom entered the high school.

Three of the rural schools, namely, Livermore, Baker River and Lower Intervale, have phonographs, and we hope soon to have one in each of the schools.

## MODEL SCHOOLS

The model schools are running smoothly. Strong critic teachers have been engaged and there is close supervision of all work. The seventh and eighth grades have been organized into a junior high school which will soon be state accredited. Manual training and domestic science are taught to the four upper grades. Mr. Twitchell, instructor in the normal school, is giving physical culture to the boys in the upper grades, and Miss Gordon directs the work for the girls. Thirty pupils graduated last June, twenty-nine of whom entered the high school in the fall.

## HIGH SCHOOL

The state high school has been state inspected and very favorable reports received. The Plymouth High School is rated as one of the best in the state. The domestic science and commercial departments have been remodelled and new equipment purchased so that everything is first-class. A regular music course has been added and systematic music courses are given by Fred Barker. The entrance was large last fall, 83 entering. There were 13 graduates last year, all of whom entered higher institutions of learning. The two who entered Plymouth Normal School are on the honor roll.

Intelligence and educational tests given by the Superintendent show that the pupils are above the average. Scores and papers may be seen in the office.
